

EASTERN LOS ANGELES REGIONAL CENTER

SELF DETERMINATION

Helpful Tips and Opportunities for Service Providers

Don't miss this important information session to learn about Self-Determination and the opportunities it may hold for your business!

Self-Determination is a new way of purchasing services in California. People served by the regional center, who participate in self-determination, will receive an Individual Budget that they will use to purchase services directly from vendored and non-vendored providers.

Liz Harrell from the Department of Developmental Services will explain the program and what it means for your current services and your future business opportunities.
