PathPoint

Step 1: Vendorization-Level Decision

Within a vendorization, are all of the current services being delivered as they were in Feb 2020 (even if done remotely)?

No

No, program is "Alternative"
(at least one person in the program is receiving alternative services)

Complete the enclosure & monthly reports.
Continue to step 2

Yes

Yes, program is "Traditional"
(all individuals in the program are receiving traditional services)

Do not need to submit enclosure or monthly reports.
Bill all individuals as traditional (as was done in Feb 2020).

Examples:

- A SLS program continues to provide supports 1:1 to individuals, both in-person and through phone. Since all services are still the same 1:1 support services, even when done over the phone, program is "traditional".
- A Supported Employment program continues to provide job coaching 1:1 in person and through telephone. The program also provides employment skills classes over zoom to individuals who were furloughed, a service that the program did not offer in Feb 2020. Since not all services are the same as Feb 2020, the program is "alternative".
- A day program is providing services through zoom, delivery of materials and 1:1 community walks. These services are different from the ratioed, facility-based, 9:00 – 3:00 daily services provided in Feb 2020 so the program is "alternative".

Step 2: Individual-Level Decision

For the individual, are all of the current services being delivered within the month as they were in Feb 2020 (even if done remotely)?

No

Bill individual as "Alternative"

Complete DDS monthly report parts a, c and d.

Yes

Bill individual as "Traditional"

Complete DDS monthly report parts a, b and d.

Examples:

- An individual in Supported Employment receives job coaching at her job, as she did in Feb 2020. *Program* is Alternative, but *individual* is billed traditional.
- An individual in Supported Employment was furloughed and participates in zoom class on employment skills. *Program* is Alternative and *individual* is billed alternative.
