ELARC Guidance on Alternative Services ISP

The development of an Individual Service Plan (ISP) is required for the implementation of Alternative Services as outlined in the August 31, 2020 DDS Directive. As ISPs are now coming in to ELARC, we are all learning together that more structure and guidance than what is outlined in the directive may be of support to our provider community. As a result, ELARC has developed a guidance to assist providers in the development of the Alternative Services ISP. [View the guidance here.](#)

Weekly Provider Check In Every Friday through December 18
