## Can Your Organization Serve as a Mobile Vaccination Site?

ELARC has been contacted by the City of Los Angeles, they are compiling a list of Community-Based Organizations (CBOs) to provide to the Governor's Office of Emergency Services (Cal OES)/ Federal Emergency Management Agency (FEMA) as recommendations for the Mobile Vaccine Clinic locations. The goal is to identify areas and communities to reach out to, to increase vaccine access. Please note that submission of an organization does not guarantee they will be selected as part of the Cal OES/FEMA mobile site operations.

If your organization can serve as a potential mobile vaccine site, please email Elizabeth Harrell at [eharrell@elarc.org](mailto:eharrell@elarc.org) with the following information no later than 3/3 at 2:00 pm:

- \* The name of your organization
- \* The contact person with email address and phone number
- \* The street address of the site you are proposing

Please send this information to [eharrell@elarc.org](mailto:eharrell@elarc.org) no later than 3/3 at 2:00 pm.

### Check In Continues

As COVID – 19 continues to affect everyone’s lives, the Department of Developmental Services (DDS) continues to support innovative and creative approaches to service delivery in response to changing needs and priorities of those served by the Regional Centers. DDS continues to provide information and training on Alternative Services as well as continues to update existing and release new directives at this time. Additionally, State and Local Public Health Guidances are updated frequently, including information about testing and vaccine distribution. Because information is still developing ELARC invites all service providers to join in this weekly discussion in order to stay informed and work together.
