Service Provider Update

Support Vaccination Efforts

ELARC is working with the California Department of Public Health and the LA County Department of Public Health to set aside appointments at COVID 19 vaccination clinics and develop home visit COVID 19 vaccination programs. Service Providers can play a role in connecting the individuals we mutually serve to connect with these resources. Check the [ELARC website](#) daily regarding appointment opportunities and contact Liz Harrell at <mailto:eharrell@elarc.org> regarding access to any links or codes necessary to assist individuals in setting up appointments.

Check In Continues

As COVID – 19 continues to affect everyone’s lives, the Department of Developmental Services (DDS) continues to support innovative and creative approaches to service delivery in response to changing needs and priorities of those served by the Regional Centers. DDS continues to provide information and training on Alternative Services as well as continues to update existing and release new directives at this time. Additionally, State and Local Public Health Guidances are updated frequently, including information about testing and vaccine distribution. Because information is still developing ELARC invites all service providers to join in this weekly discussion in order to stay informed and work together.
