# Service Provider Update

## LA County Vaccination Order, Facility Directives from Other State Agencies, Covid-19 Vaccination, Personal Protective Equipment, and Executive Order

**LA County:** On September 9, 2021, the Los Angeles County Department of Public Health (LACDPH) issued a letter outlining the requirement for regional centers to adhere to the LA County Order dated August 12, 2021.

[View the letter here.](#) We encourage that vendored service providers consult with legal counsel and/or make contact with LACDPH, for further guidance on this correspondence and related public health order.

**State:** On September 15, 2021, the Department of Developmental Services (DDS) released correspondence to the Regional Centers addressing directives from other state agencies, vaccination, and PPEs. [View the letter from DDS here.](#)

**Federal:** On September 9, 2021 President Biden issued a series of Executive Orders that expanded mandatory vaccination requirements for COVID-19. This includes vaccine mandates for federal workers and contractors, [employers in the healthcare sector](#), and all employers with over 100 employees. The federal government will implement this mandate through the Department of Labor's Occupational Safety and Health Administration (OSHA.) OSHA is developing a rule that will require all employers with 100 or more employees to ensure their workforce is fully vaccinated or require any workers who remain unvaccinated to produce a negative test result on at least a weekly basis before coming to work. OSHA will issue an Emergency Temporary Standard (ETS) to implement this requirement. [Read the President's COVID 19 Action Plan here](#)
